Properties

string **Id** [get, set]

string **ComputerName** [get, set]

string **CpuAvg** [get, set]

string **RamAvg** [get, set]

string **ProcessAvg** [get, set]

string **IdComputer** [get, set]

Detailed Description

Definition at line **9** of file **ComputerInformation.cs**.

Property Documentation

◆ ComputerName

string CheckComputer.ComputerInformation.ComputerName   get   set

Definition at line **12** of file **ComputerInformation.cs**.

◆ CpuAvg

string CheckComputer.ComputerInformation.CpuAvg   get   set

Definition at line **14** of file **ComputerInformation.cs**.

◆ Id

string CheckComputer.ComputerInformation.Id   get   set

Definition at line **11** of file **ComputerInformation.cs**.

◆ IdComputer

string CheckComputer.ComputerInformation.IdComputer   get   set

Definition at line **20** of file **ComputerInformation.cs**.

◆ ProcessAvg

string CheckComputer.ComputerInformation.ProcessAvg   get   set

Definition at line **18** of file **ComputerInformation.cs**.

◆ RamAvg

string CheckComputer.ComputerInformation.RamAvg   get   set

Definition at line **16** of file **ComputerInformation.cs**.
